

CONSULEGIS AGM & Spring Conference - Amsterdam/The Netherlands

Dear CONSULEGIS friends,

Marxman Advocaten is pleased and honoured to host the CONSULEGIS AGM & Spring Conference 2017. We therefore kindly ask you to save the date of **11-14th May 2017** and to join us in the capital of the Netherlands, Amsterdam.

We believe business is for winners - that is why we have joined the CONSULEGIS network. We would like to share this business with you as our CONSULEGIS partner. We are very excited to host this conference. It will, without any doubt, strengthen our relationships and provide us with good conditions for building business among member firms.

Maybe some of you have visited the Netherlands before. If so, then you know there is much more than wooden shoes, wind mills and Dutch cheese. During your stay in Amsterdam, you will get inspired and fall in love with this beautiful city and the Netherlands.

Visit the world famous Rijksmuseum or the Van Gogh museum with its national master painting pieces. Do you prefer modern and contemporary art and design, then make sure you do not miss the Stedelijk Museum. Go back in history and combine a trip to the Anne Frank House that is near the Westerkerk, Holland's most famous church. In the diary Anne Frank kept during the Second World War, she wrote that she could hear the bells of the Westerkerk from her hiding place.

Many Dutch cities were built around canals and the Amsterdam Canal District is on the UNESCO World Heritage List. The city has even been nicknamed the 'Venice of the North'. Explore the treasury of historic Amsterdam from the water and take a cruise through the canals. It will be a wonderful experience. For a perfect time to relax in natural surroundings, you can visit the charming citypark Vondelpark or the modern 14-hectare citypark that surrounds the Westergasfabriek, a venue for digital art and culture.

Shop till you drop in fashionable clothing shops or wander at vibrant flea markets and colourful flower markets. As one of the world's biggest exponents of dance music with Dutch DJ's like Hardwell, Armin van Buuren, Afrojack, Tiësto and Martin Garrix, Amsterdam has an exciting nightlife, which you can enjoy. Go for a night out in a hotspot where DJ's keep the crowd going with dance music from techno and trance to hip-hop, funk and deep house or have fun in one of the many wine bars and restaurants. Amsterdam will suit every taste for sure. We are looking forward to share these aspects of Holland and Amsterdam with you and we will make sure you won't regret joining the CONSULEGIS AGM & Spring Conference 2017.
